ORGANISATION INTERNATIONALE DU CAFÉ

SC 24/13

1 March 2013
Original: English

E

Statistics Committee
5th meeting
6 March 2013
London, United Kingdom

**Compliance with the provision of
statistical data
Coffee years 2001/02 to 2011/12 and
October 2012 to January 2013**

Background

1. This document provides information on the compliance of Members with the Rules on Statistics approved by the Council which are contained in documents ICC-102-9 – Certificates of Origin; and ICC-102-10 – Statistical Reports.
2. The information contained herein covers each coffee year from 2001/02 to 2011/12 and from October 2012 to January 2013. It should be noted that the report does not cover all data required under the new Rules on Statistics as Members are still adjusting to the new requirements.
3. Compliance by exporting Members in respect of the provision of timely statistics based on monthly statistical reports and/or Certificates of Origin in coffee years 2008/09 to 2011/12 is given in Annex 10. Similarly, Annex 11 shows the compliance by importing Members in the same period.

Action

The Statistics Committee is requested to examine the compliance status of each Member of the Organization, in order to make the appropriate recommendations to the Council.

**COMPLIANCE WITH THE PROVISION OF STATISTICAL DATA
COFFEE YEARS 2001/02 TO 2011/12
OCTOBER 2012 TO JANUARY 2013**

Statistics provided by exporting Members

- *Preliminary monthly exports (Annex 1)*

1. Exporting Members are requested to send to the Organization, not later than **30 days** after the close of each month, information on the total exports in the previous month. If final figures are not available, provisional figures or estimates may be provided (see paragraph 3 (a) of the Rules on Statistics – Statistical Reports, document ICC-102-10).

- *Monthly Reports on exports (Annex 2)*

2. Exporting Members are requested to send to the Organization, not later than **60 days** after the close of each month, information on the volume and value of exports by form of coffee and by country of destination for the month under report. This information should be based on the relevant Certificates of Origin issued to cover coffee shipped during that period under report and should comply with the format specified in Annex I-B of the Rules on Statistics – Statistical Reports, document ICC-102-10.

- *Certificates of Origin (Annex 3)*

3. Exporting Members are requested to transmit data in electronic files or to forward the first copy of each Certificate of Origin together with a copy of the relevant Bill of Lading to the Organization (see paragraph 5 of Rule 4 of the Rules on Statistics – Certificates of Origin, document ICC-102-9). In calendar year 2012, 72% of world exports have been based on data received through Certificates of Origin¹. Of the 117,633² records stored in the database for 2012, 109,675 records – equivalent to 97.2% of the total – were received electronically, whereas the remainder 3,252 records – or 2.8% of the total – were keyed in.

4. The Rules on Statistics that came into force simultaneously with the ICA 2007 have introduced some changes to the procedures on the compliance by Members. Any exporting Member that encounters difficulties with the implementation of the current Rules should contact the Organization to request assistance. The volume of exports from exporting Members from which no Certificates of Origin have been received by the Organization

¹ Data received from some exporting Members are believed to be partial.

² Including 662 records from former ICO Members.

amount to 24.8% of the total volume exported in 2012. As established in paragraph 4 of Article 33 of the ICA 2007, exporting Members that may opt to issue an alternative document are required to send electronic data or the equivalent document they issue as a replacement to the ICO Certificate of Origin.

- *Monthly prices paid to growers (Annex 4)*

5. Exporting Members are requested to send to the Organization information on the average price received by growers for their produce or the minimum price, if any, guaranteed by the Government to the growers on a monthly basis (see paragraph 1 (a) of the Rules on Statistics – Statistical Reports, document ICC-102-10).

- *Annual data on opening stocks, production and internal consumption (Annex 5)*

6. Exporting Members are requested to send to the Organization estimates of production and domestic consumption for the current crop year and the following crop year and closing stocks at the end of each crop year (see paragraph 1 (b) and (c) of the Rules on Statistics – Statistical Reports, document ICC-102-10). Those exporting Members producing/exporting more than one type of coffee or using different processing methods (dry and wet) are also requested to indicate, in percentage terms, the type and method of processing. Information on the crop percentage distribution by quarter and the area under coffee and number of trees should also be sent on an annual basis (see paragraph 1 (c) of document ICC-102-10).

- *Report on imports (in effect from February 2012)*

7. Exporting Members are requested to send to the Organization **monthly** information on the volume and value of imports of coffee, if any, by form (and type, where applicable) by country of origin. This information can be provided according to the relevant Harmonised System (HS) codes by product. Where monthly information is not available, annual data should be provided within **60 days** after the end of each calendar year (see paragraph 1 (a) of the Rules on Statistics – Statistical Reports, document ICC-102-10).

- *Monthly retail prices (in effect from February 2012)*

8. Exporting Members are requested to send to the Organization information on the representative retail market prices for roasted and/or soluble coffee for the month under report (see paragraph 1 (a) of document ICC-102-10).

- *Area under coffee (in effect from February 2012)*

9. Exporting Members are requested to send to the Organization, on an annual basis, information on the area under coffee – number of trees with respective area in production and number of new trees (not yet in production) – see paragraph 1 (c) of document ICC-102-10).

10. It should be noted that since the Rules came into effect last February, very few exporting Members have complied with the requests outlined in paragraphs 7 to 9 above. Efforts will be made in order to obtain this information from all exporting Members so that regular reports may be obtained from the Organization's database.

Statistics provided by importing Members

- *Monthly Reports on imports and re-exports (Annex 6)*

11. Importing Members are requested to send complete reports to the Organization by email or fax, not later than **60 days** after the close of each month, information on the volume and value of imports by form of coffee and by country of origin and on the volume and value of re-exports by form of coffee and by country of destination for the month under report (see paragraph 3 (c) of document ICC-102-10).

- *Monthly retail prices (Annex 7)*

12. Importing Members are requested to send to the Organization information on the representative retail market prices for roasted and/or soluble coffee for the month under report (see paragraph 2 (a) of document ICC-102-10).

- *Information on roastings (Annex 8)*

13. Importing Members are requested to send to the Organization information on the amount of green coffee that has been roasted at the end of each quarter/calendar year, if available (see paragraph 2 (b) of document ICC-102-10).

- *Information on inventories (Annex 9)*

14. Importing Members are requested to send to the Organization information on the stocks of green coffee held by importers and roasters on the last day of the quarter/calendar year, if this information is available (see paragraph 2 (b) of document ICC-102-10).

- *Information on changes made on taxes and duties, laws and regulations of coffee exports and imports in the country*

15. **All Members** are requested to send to the Organization information on changes or revisions in the current level of taxes and duties on coffee exports/imports, or to the laws and regulations of coffee exports/imports in the country (see paragraphs 1 (d) and 2(c) of document ICC-102-10).

Compliance with Resolution Number 420

16. Following the adoption of Resolution Number 420 by the Council in May 2004, exporting Members have been requested to comply with the provisions of the Resolution. However, as this compliance is voluntary, the information on quality received from exporting Members has been monitored for coffee shipments that have taken place since the Resolution came into effect. Document PM-23/13 contains the latest progress report on the implementation of the Coffee Quality-Improvement Programme.

Summary tables and conclusions (Annexes 10 and 11)

17. Annex 10 shows that compliance with the Organization's statistical requirements is full and satisfactory for 19 out of 38 exporting Members in the current membership of the Agreement. This represents 73.8% of average exports in coffee years 2008/09 to 2011/12. Similarly, Annex 11 shows full and satisfactory compliance by 31 importing Members³ representing 99.7% of average annual imports by all importing Members in the same period.

³ EU Member states must comply with the statistical Rules of the Organization individually.

18. There are 10 exporting Members failing to comply with their statistical obligations. Total exports by these Members represent 1.5% of the average exports in the last four coffee years. In addition to these, another 9 exporting Members, together accounting for nearly 20% of the exports in the period, also show a poor compliance performance. Exports by 18 producing non-member countries represent nearly 5% of the average total exports in the last four coffee years.

19. On the importers side, Tunisia continues to be the only importing Member still to comply with the statistical Rules of the Organization. However, annual data on their coffee trade have been provided up to calendar year 2011. Efforts will continue to be made in order to obtain these reports on a monthly basis.

20. Timely provision of production and internal consumption estimates by most producing countries continues to be unsatisfactory, particularly for the last three crop years. Exporting Members should be made aware that statistical information is essential for the reliability of the reports and for the accuracy of the supply/demand analysis released by the Organization.

21. Exporting and importing Members are required to keep the Organization informed of any changes to their existing level of taxes and duties on imports and exports of coffee and on the laws and regulations currently in effect in each country.

22. The following economic studies have been prepared and will be presented to Members at the 110th Session of the Council:

ICC-110-4	Re-exports of coffee by Germany
ICC-110-5	World trade of soluble coffee

23. The Rules on Statistics contained in documents ICC-102-9 and ICC-102-10, Certificates of Origin and Statistical Reports, respectively, have now been in effect for two years. Members that encounter difficulties in implementing these Rules in their countries are invited to contact the Executive Director with a view to seeking a solution on how timely reports and data can be prepared in accordance with the requirements specified.
