

**Basis for the initial distribution of votes  
among exporting and importing Members  
for coffee year 2026/27**

1. The Executive Director would like to remind Members that, pursuant to paragraph (6) of Article 12 of the International Coffee Agreement 2007, the distribution of votes is determined by the Council at the beginning of each coffee year.
2. To enable the Council to determine the distribution of votes among exporting and importing Members for coffee year 2026/27, it is necessary, in accordance with paragraphs (3) and (4) of Article 12, to establish the average volume of coffee exports to all destinations by exporting Members and of coffee imports from all sources by importing Members, over the preceding four calendar years from 2022 to 2025.
3. Vietnam's export data for calendar year 2025 were not available for inclusion in this document. Once the data are provided by the Member, a revised document will be issued, incorporating any other amendments that may be required.
4. In the absence of objections from the exporting or importing Members concerned, the information contained in the attached tables will be used as the basis for calculating the distribution of votes for coffee year 2026/27. Members are requested to notify the Organization by email ([stats@ico.org](mailto:stats@ico.org)) **by 7 September 2026** of any proposed changes to their export or import data, and when doing so, to provide the relevant official source of data to facilitate verification.
