Annex

| | |
|------|--|
| I-A | Exporting Members: Monthly, quarterly and annual information |
| I-B | Exporting Members: Compulsory file format for statistical monthly reports on exports |
| II-A | Importing Members: Monthly and quarterly/annual information |
| II-B | Importing Members: Compulsory file format for statistical monthly reports on imports |
| II-C | Importing Members: Compulsory file format for statistical monthly reports on re-exports |
| III | ICO country codes (in alphabetical and country code order) |

RULES ON STATISTICS

STATISTICAL REPORTS

1. Exporting Members should note that:
 - (a) information on volume and value(s) of exports by form of coffee (and by type, where applicable) and by country of destination shall continue to be supplied monthly together with prices paid to growers;
 - (b) the following information shall be supplied quarterly: estimates of production and domestic consumption;
 - (c) information on the estimated level of stocks at the end of the crop year shall be supplied annually; and,
 - (d) information on taxes and duties, laws and regulations of coffee exports are to be provided when revisions take place in the country.

2. Importing Members should note that:
 - (a) information on volume and value(s) of imports and re-exports by form of coffee and by country of origin/destination shall continue to be supplied monthly together with retail market prices and wholesale market prices (if available);
 - (b) information on roastings shall be supplied where available;
 - (c) information on inventories shall be provided at the end of each calendar year – as at 31 December; and,
 - (d) information on taxes and duties, laws and regulations of coffee imports/ re-exports are to be provided when revisions take place in the country.

3. In order that a trade statistical document may be issued each month showing the volume of exports, imports and re-exports in the preceding month:
 - (a) exporting Members are requested to send to the Organization by email or fax, not later than **30 days** after the close of each month, information on total exports in the previous month. If final figures are not available, provisional figures or estimates may be provided. Those exporting Members producing and exporting both types of coffee are requested to provide, to the extent possible, an estimated breakdown of their exports by type; and
 - (b) importing Members are requested to send complete reports to the Organization by email or fax not later than **60 days** after the close of each month.

4. All Members are requested to send their monthly statistical reports using spreadsheets (Microsoft Excel or compatible file format) whenever possible. Annexes I-A and I-B (for exporting Members) and Annexes II-A, II-B and II-C (for importing Members) show the file format specifications for these reports. Alternative arrangements can be made with Members who may be unable to comply with the format requested. The Organization shall endeavour to provide any assistance on requests received from Members on this matter.

5. Whenever changes or revisions in the current level of taxes and duties on coffee exports/imports, or to the laws and regulations of coffee exports/imports in the country, Members are requested to inform the Organization of these changes/revisions, by fax or email, as soon as possible in order that the relevant information is kept up to date.

**INSTRUCTIONS
FOR MONTHLY REPORTS**

1. Monthly reports are to be completed by each exporting and importing Member as soon as possible after the end of each month and should be emailed to the Organization (to stats@ico.org). Members who still do not have email/Internet facilities are requested to send their reports by fax (+44 (0) 20 7580 6129).
2. Spreadsheet file formats, or compatible, are attached at Annexes I-A and I-B for exporting Members and Annexes II-A and II-B for importing Members. Please note that for each row entry listed in the report **compulsory** information is to be entered in all columns.
3. Whenever possible, volumes should be reported in net weight (kg or lb), and in the case of processed coffee the net weight reported should not be converted into green bean equivalent. If this is not possible it is most important to specify any other unit of weight used. The f.o.b. or c.i.f. values should be stated in national currency and/or in US dollars. All figures should be for **actual** exports or imports and not for authorizations or licences issued.
4. If coffee is exported or imported in a form other than green, roasted or soluble, the necessary notation(s) should be made in an additional column in the file to be transmitted – see definitions in paragraph (1) of Article 2 of the 2001 Agreement.
5. Relating to volume and value(s) of coffee exported/imported, list each country of destination/origin for each form of coffee (green, roasted, soluble or other coffee) by name and by ICO country code – see Annex III for complete list of all countries and their respective codes.
6. Volumes of processed coffee reported should be expressed in **NET WEIGHT, not in terms of green bean equivalent (GBE)**.
7. Exporting Members are requested to ensure that the monthly information on exports is based on the Certificates of Origin issued for the month covered by the report. Furthermore, those exporting Members who produce both Arabica and Robusta coffees are reminded to ensure that the correct type of coffee is entered in the appropriate column.
8. If there are corrections to be made to figures for previous months, these should be in a separate file or spreadsheet. Members are requested to send a short text message containing the relevant explanation to this effect – whether the revision in volume or value(s) to a particular destination is to replace or in addition to an existing one sent previously.

9. Information on prices paid to growers is to be sent by exporting Members in national currency where the unit of weight and form of coffee in which the coffee is purchased is clearly indicated. Those exporting Members producing both types of coffee should indicate both prices separately. In addition, exporting Members processing coffee using different methods (dry and wet) should, whenever possible, also indicate both prices separately.

10. Importing Members are to send information on domestic coffee prices which refers to the representative retail prices and wholesale prices (when available) in national currency for roasted and/or soluble coffee, where, in each case, the unit of weight used is specified. Similar information should also be provided by exporting Members, where available.

**INSTRUCTIONS
FOR QUARTERLY AND ANNUAL INFORMATION**

1. Quarterly and annual data are to be sent as soon as possible after the end of each calendar or crop year or quarter, as relevant, but not later than **60 days** thereafter, and should be forwarded to the Organization by email (to stats@ico.org) or fax (+44 (0) 20 7580 6129).

2. Exporting Members should note that:
 - (a) estimates of production and domestic consumption are required for the current crop year and also for the following crop year. These estimates should be revised as necessary from quarter to quarter. Exporting Members producing more than one type of coffee should also provide a breakdown of production and domestic consumption by type;
 - (b) estimated stocks at the end of each crop year refers to stocks of green coffee held in exporting Member countries for export and domestic consumption other than coffee already purchased for consumption by retailers, hotels, restaurants, etc. Those Members producing more than one type of coffee should also provide a breakdown of the stocks held by type;
 - (c) market prices, if available, refers to the representative retail market prices in national currency of roasted and/or soluble coffee specifying the unit of weight used; and
 - (d) the Organization should be notified of any changes to taxes and duties on exports of coffee which have been made during the quarter/year under report. In addition, a separate message should be sent regarding any revision of the relevant laws and regulations pertaining to production, consumption, exports and imports (where applicable) of coffee which has occurred in the quarter or year.

3. Importing Members should note that:
 - (a) information on roastings, where available, refers to the amount of net weight of green coffee which has been roasted in the country during the period covered by the report. If precise figures are not available estimates should be provided;
 - (b) information on inventories refers to stocks of green coffee held by importers and roasters, including stocks in free ports where such exist, on the last day of the **calendar year** plus stocks of processed coffee on hand and not yet purchased for consumption by retailers, hotels, restaurants, etc.; and

- (c) the Organization should be notified of any changes to taxes and duties on imports of coffee which have been made during the quarter/year under report. In addition, a separate message should be sent regarding any revision of the relevant laws and regulations pertaining to consumption, imports and re-exports of coffee which has occurred in the year.

STATISTICAL INFORMATION TO BE SENT BY EMAIL OR BY FAX

I. Monthly information (to be emailed/faxed within 30 days of the close of the month):

| | | |
|---|------------------|------------------|
| a. Provisional volume of total exports the previous month: | | _____ 60-kg bags |
| Type of coffee*: | (____) % Arabica | (____) % Robusta |
| Method of processing**: | (____) % Dry | (____) % Wet |
| | (____) % Wet | (____) % Dry |

* For those exporting Members producing both types of coffee

** For those exporting Members processing coffee via both methods

| | |
|---|--|
| b. Average price paid to growers* in the previous month: | |
|---|--|

* in national currency per unit purchased (please specify) and with a breakdown between Arabica and Robusta for those countries producing both types of coffee

II. Quarterly information

| Preliminary estimate for crop year ____/____ | | |
|--|-----------------------|-----------------------|
| Total production* | Domestic consumption* | Exportable production |
| | | |
| (____) % Arabica | (____) % Arabica | |
| (____) % Robusta | (____) % Robusta | |

Note: Please specify unit used

III. Annual information at the end of each crop year (000 of 60-kg bags)

| Estimated gross closing stocks | | |
|---|----------------|----------------|
| as at _____ | | |
| | Arabica coffee | Robusta coffee |
| Total stocks held (a) + (b) 1/ | | |
| a. Stocks of green coffee | | |
| i. Public 2/ | | |
| ii. Private | | |
| b. Stocks of processed coffee 3/ | | |
| i. Public 2/ | | |
| ii. Private | | |

1/ Stocks held by roasters, exporters, central marketing and regulating organizations and cooperatives

2/ Stocks held by the Government or government controlled agencies/bodies

3/ in GBE. Please use the following conversion factors: 1.19 for roasted coffee and 2.6 for soluble coffee

STATISTICAL INFORMATION TO BE SENT BY EMAIL OR BY FAX

I. Monthly information on prices

| a. Roasted coffee | | | | |
|--------------------------|-----------------|----------------|-----------------|----------------|
| Month/year | Retail | | Wholesale | |
| | amount/currency | unit of weight | amount/currency | unit of weight |
| | | | | |
| | | | | |
| | | | | |
| b. Soluble coffee | | | | |
| Month/year | Retail | | Wholesale | |
| | amount/currency | unit of weight | amount/currency | unit of weight |
| | | | | |
| | | | | |
| | | | | |

II. Inventories (at the end of period - please specify period)

| As at _____ | Volume | Unit of weight |
|---|--------|----------------|
| a. Green coffee | | |
| a.1 for domestic consumption or re-export | | |
| a.2 in free ports | | |
| Total (a1+a2) | | |
| b. Processed coffee (if available) | | |
| b1. Roasted coffee | | |
| b2. Other (specify) | | |
| Total (b1+b2) | | |

III. Information on roastings of green coffee at the end of period (where available):

| As at _____ | Volume | Unit of weight |
|------------------------------|--------|----------------|
| Total (a+b) | | |
| If possible, please specify: | | |
| a. For roasted coffee | | |
| b. For soluble coffee | | |
