Visión panorámica de la crisis cafetera

Antecedentes

En el presente documento figura el texto de una comunicación del Director Ejecutivo en la que se expone un panorama histórico de la crisis cafetera (los datos correspondientes al año último pueden comprender estimaciones, que se indican con un asterisco). Esa comunicación será presentada a la Junta Ejecutiva en su serie de reuniones del 30 y 31 de enero de 2003.

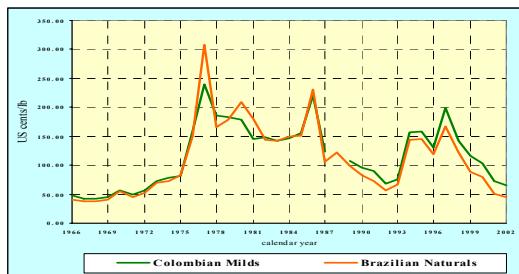

Medidas que se solicitan

Se pide a la Junta Ejecutiva que tome nota de este documento.

**Value of exports of all forms of coffee
Calendar years 1966 to 2002***

**Value of coffee exports as a percentage
of the value of exports of all commodities
Calendar years 1965 to 2001**

Addressing the crisis:

On the supply side:

- Coffee quality-improvement programme
- Diversification
- Production monitoring
- Sustainable economy

On the demand side:

- Promotion – increasing coffee consumption through market development
- Barriers to trade

Actions to improve coffee quality – ICC Resolution no. 407

Exporting Members shall not export coffee that:

- for Arabica, has in excess of 86 defects per 300g sample (New York green coffee classification/Brazilian method, or equivalent);
- for Robusta, has in excess of 150 defects per 300g (Vietnam, Indonesia, or equivalent);
- for both Arabica and Robusta, has a moisture content below 8 percent or in excess of 12.5%, measured using the ISO 6673 method.
